

PICOTAP®

# Flex-Tap® Faucet

Discover the Power of Flexibility

Flex-Tap, the newest member to Hydro's Picotap Faucets, offers flexibility to a faucet's neck. The series of vertebra like segments extend from the base to the tip of the faucet allowing the neck to bend in any direction. Flex-Tap goes beyond the limits of the ordinary faucet.

## Ultrapure Design

Hydro designed Picotap Faucets as an integral part of our ultrapure water systems. Picotaps will not contaminate ultrapure water because they are made of UHMW polyethylene and polypropylene without sealants or glues. The patented non-particulating diaphragm valve eliminates pockets for bacterial growth.

## Choose Your Style

Hydro offers a complete line of Picotap Faucets that allows you the flexibility of choosing the options or features that best fit your needs.

- vertebra like segments allow neck to bend in any direction
- deck or surface mounted faucets that are quickly installed
- delivers purified water as effectively as stainless steel at a fraction of the cost
