

RO²

Hydro's Compact Reverse Osmosis System

RO² Series

The Hydro RO² Systems are totally preplumbed, prewired packaged systems that include a prefilter, storage tank and distribution pump. This is our most economical space saving system yet, and is easily installed and ready for immediate use.

Heavy Duty Polyurethane-Coated Cabinet with OPTIONAL Sound Reduction Foam (38 db at 6 feet)

Stainless Steel Pressure Vessels with Sprial Wound Membranes

High Pressure RO Pump

Quiet 316 Stainless Steel Centrifical Distribution Pump, 10 GPM

Instrumentation: Temperature Compensated, Dual Channel Resistivity Monitor for Water Quality Control

Level Controls for Automatic Operation

Dome Top, Dish Bottom FRP Storage Tank

Concentrate and Permeate Flow Gauges

Smaller capacity to Hydro's Series A RO system.
